A. Our school values are....

Caring Courtesy Contribution Cooperation Consideration
Our school is a wonderful place to be when people take on these values as part of their daily lives.

Your task is to use your iPad to illustrate each value. You may use a variety of ways to do this. You might use photos or drawing tools. You may even use your writing skills to assist. (Print a hard copy for your book – 1 image/illustration per value)

B. Maths – Place Value

Number mastermind

<table>

</tbody>
</table>

Have a family member choose a five-digit number. You have to guess what it is.
The person choosing the number will....
*Put a tick next to the number if it is correct number in correct position.
* 0 next to the number means correct number, incorrect position.
*X next to the number means incorrect number, incorrect position.

Make another grid but now you make a number to hundreds of thousands. 6 digits. (You could pick a number this time.)
**Challenge: try 7 digits?? – it’s up to you.

C. Maths A-Z (Getting your minds back onto mathematics)

Try to list a maths word for every letter of the alphabet.

D. Grade 6 Quiz:

How many members of the 2015 Grade 6 teaching team began their teaching careers in 2002? Who are the teachers?

Reminders – Showcase ‘Quality’ Homework (stay neat), Interschool Sport Trials (Wednesday and Friday morning), Return camp notes
Camp dates: March 16th – 20th
